SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a regular submission (extension of a currently approved information collection).

The National Marine Fisheries Service (NMFS) Southeast Region manages the U.S. fisheries in the exclusive economic zone (EEZ) of the South Atlantic, Caribbean, and Gulf of Mexico regions under various Fishery Management Plans (FMPs). The Regional Fishery Management Councils prepared the FMPs pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The regulations implementing the FMPs are located at 50 CFR part 622.

The recordkeeping and reporting requirements in 50 CFR part 622 form the basis for this collection of information. Requirements that fishing gear be marked are essential to facilitate enforcement. The ability to link fishing gear to the vessel owner is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Act. The marking of fishing gear is also valuable in actions concerning damage, loss, and civil proceedings. The requirements imposed in the Southeast Region are for coral aquacultured live rock; golden crab traps; mackerel gillnet floats; spiny lobster traps; black sea bass pots; and buoy gear.

II. Method of Collection

The markings will be placed directly on the gear.
